2. Measures taken to complete the syllabus of courses and programs.		<p>Measures taken to complete the syllabus of courses and programs.</p> <p>The present pandemic gave us an opportunity to redesign our Teaching Learning Practices (TLP) based on our past experience. The college has got two E-Learning portal of International Standards, one of the portal being Mykclassroom.com and the other being Google Classroom. The Google Classroom is being appreciated by the Google Inc, Sanfransisco, USA as the globally best users among the Higher Education Institutions in the year 2016. All the faculty and students are well trained further for the past six years to create material, to handle classes and to study through both the Online Platforms. The past experience in using the online platforms has helped us to maintain equilibrium in regular studies during pandemic.</p> <p>The task of conducting examination during pandemic was really challenging. For every semester the student has to write three Continuous Internal Assessment (CIAs) Test and one End Semester Examination for every course of study. They are also assessed based on the Capstone Model of Assessment which the college has designed with 14 parameters. The assignment and Capstone Model Assessment were already done and evaluated even before the pandemic started. The question of conducting the end semester examination without downgrading the standards, the college engaged a software for proctoring called Examly. This software helps to upload the questions and manual and online proctoring were done when the students write their examination from their home. The whole process of writing the examination is recorded and kept as an evidence. The students write the examination before the camera and upload the answers in the Examly Software. The faculty who is proctoring the examination will be viewing both writing and uploading. The Controller of Examination (COE) section get the answer sheets through the online mode which is also forwarded through the evaluators who evaluate in online mode. The Examly software has various internal control where any malpractices, cut and paste, tab-switching, prompting through voice-mode or copying from any written material will be immediately known and they will be expelled from the examination hall automatically.</p> <p>The college uses two software for teaching namely Google Classroom and Mykclassroom. The Google Classroom is a general purpose software supplied by Google Inc. which requires number of applications by the user. The college developed a System Operating Procedure (SOP) for developing Google classroom classes and trained all the Faculty Members. The content of the google classroom includes educational video, animation video, power-pointer presentation, e-books and written materials from social networking sites like Wikipedia, faculty lecture tools like compilers, scientific bars, commercial calculators, search engine questions and case studies related to the topics for the competitive and civil service examination etc. The Faculty members are expected to upload all these before the commencement of the semester. The content prepared by the faculty are vetted by the experts before they upload it. A lesson plan is prepared for every hour and posted to the students before the commencement of the semester. Mykclassroom is the online portal which acts as the library for students to improve their knowledge in the respective field. For every course the faculty opens a mykclassroom and post many material relating to the topic which are already available as a free-ware in the net. The portal also includes e-books, e-articles and other e-related content. The portal mainly uses youtube as the material for the study which has a predicting ability. Once a student enters into the youtube portal, The youtube self predicts the development of the topic by suggesting twelve more topics. Likewise every topic is expanded further and it is developed by 1:12 ratio. This helps the students to study beyond the curriculum and explore the emerging areas in the respective field.</p>
