3.	NSS	World soil day	05-12-2022	Nil	Dr. R. Jagajeevan	Principal, SKASC	20	World Soil Day (WSD) is held annually on 5 December as a means to focus attention on the importance of healthy soil and to advocate for the sustainable management of soil resources. In order to this, our volunteers have planted the saplings and Soil puts food on our plates, purifies our water, protects us against flooding and combats drought. It's also key to tackling climate change as it captures and stores vast amounts of carbon. There is no food security without healthy soils.
