## 6. Industrial Exposure Training

---

To make the students industry-ready, SKASC focuses on the practical aspects of education rather than just the theoretical experience. Since 2011, Industrial Exposure Training is a part of the curriculum for the final year students in which they are subjected to industrial exposure for a specific duration and helping them gain hands-on experience in industrial operations. It provides the students with opportunities for learning about the industry experiences outside the classroom environment and to work with industry professionals.

Students can opt for Industrial Exposure Training during fifth semester for a period of 8-10 weeks; in such case two courses, DSE-I & DSE-II will be exempted. Marks for the Industrial Exposure Training will be given based on the report and viva-voce examination conducted by the Department.

For B. Sc Catering Science and Hotel Management and B. Sc Costume Design and Fashion students can opt for Industrial Exposure Training of 8 to 10 weeks in fifth semester. The above two elective courses with 8 credits are exempted for the students opting for the Industrial Exposure Training.

## 9. New Initiatives

---

### 9.1 Digital Internal Assessment

Digital Internal Assessment, an innovative Assessment Module has been introduced by the College as a part of the CIA pattern. Digitalization is a cutting edge process that enhances the growth of an institution to the next level. This term not only reduces the working time and makes it smarter but also downsizes the usage of papers to protect the environment. Sri Krishna Arts and Science College initiates paper-free campus as much as possible by considering the global warming issues. As a part of it, Continuous Internal Assessment (CIA) is conducted online through Google Classroom and the students can attend the test during the scheduled time. The evaluation is done digitally at the end of the test and the students get their results.

### 9.2 Online End Semester Examination in Proctored Mode

During pandemic, the proctored mode examination was conducted. Features used are:

- AI based Face Authentication
- Real-time proctoring alerts with AI Invigilator
- Test taking in Offline Mode
- Automatic and Configurable Test Resume restrictions
- Choice based question attempt restrictions
- Live feed of images and AI assister

Standard Operating Procedure to conduct Examinations in Online was designed and intimated to students and Staffs.
