E- LEARNING

The pace of change in the Institution has been brisk in teaching and learning system since 2012. The Institution has moved from lean-based learning system to activity based learning system. The Institution considers that the competition and collaboration in education are not opposite; instead both should go horizontally. Hence the Institution has introduced Real Time Experience Learning System (RTELS) in collaboration with myklassroom.com (web-based learning)

An exciting curriculum was designed based on "evidence-based" approach (EBA), using proven ICT enabled educational methods – as supplemented to traditional chalk and duster system (CDS). The teaching pedagogy moved from static standards to smart teaching through edutainment programmes, customized standards as levied in "Peer to Peer" tutoring system (P2P). The new curriculum design integrates the

industrial verticals with the academic learning system. The education technology of the Institution offer far more stimulation and exciting education platform in higher education. The micro level teaching in the Institution narrows down the gap between slow learners and fast learners. Spoken tutorial classes are conducted to all the programmes offered by MHRD project, IIT Bombay.

As a result, the faculty members are prepared to teach from the stake holders' knowledge base. The RTELS, EBA and P2P systems introduced by the Institution fosters the creativity of the learners, increase the understandability of concepts and tweaks the skill of the students.

REGULATIONS FOR UNDER GRADUATE DEGREE PROGRAMMES

IN CBCS PATTERN (With effect from 2016-2017)

I. Preamble:

The choice based credit system provides a 'cafeteria' type approach in which the students can take courses of their choice, learn at their own pace, undergo additional courses and acquire more than the required credits, and adopt an interdisciplinary approach to learning. Thus the Choice Based Credit Systems make the product of the college at par with the global practices in terms of academic standards and evaluation strategies, retaining the present structures of the undergraduate and post-graduate programmes.

In the emerging scenario of Internationalization of Indian Higher Education, it is imperative that the Universities and affiliated Colleges in India should follow this system so that the mobility of their products both within and across the geographical jurisdiction becomes possible. Hence Sri Krishna Arts and Science College thought it fit to introduce the full fledged Choice Based Credit System in all the Undergraduate in the Faculties of Arts, Science and Commerce effective from the academic year 2016-17.
