ABOUT THE INSTITUTION

Sri Krishna Arts and Science College, established in 1997, is an autonomous institution committed to providing quality education that fosters professional and personal growth. With the vision of "identifying stakeholder expectations to enhance the professional and personal life of students and to make them responsible global citizens by acting conscientiously to meet the expectations of all stakeholders," the College emphasizes ethical values, outcome-based education and holistic development. Through academic excellence and industry-relevant learning, the institution prepares students to meet societal and global expectations.

ABOUT THE DEPARTMENT

The Department of Commerce PA & CS at Sri Krishna Arts and Science College is committed to providing excellence in Professional Accounting and Corporate Secretaryship. The curriculum is designed in line with the standards and guidelines of ICAI and ICSI, ensuring industry relevance and academic rigor.Keeping pace with technological advancements, the department has recently incorporated Artificial Intelligence (AI)-oriented subjects to equip students with modern skills in commerce and corporate practices. With the support of dedicated faculty, the department nurtures professionals ready for a competitive and technology-driven world.

PROGRAM OBJECTIVES

The objective of this program is to provide participants with a comprehensive understanding of the impact of Artificial Intelligence and digital transformation on the auditing profession. The program aims to highlight the continuing relevance of the human auditor in an AI-driven environment, with particular emphasis on ethics, professional judgment, and trust. It seeks to create awareness of emerging AI applications in auditing, address ethical and regulatory considerations and prepare aspiring professionals to adapt to the evolving demands of the audit profession while upholding integrity, accountability and professional standards.

PROGRAM OUTCOMES

Attending this conclave, participants will acquire a comprehensive understanding of the impact of Artificial Intelligence and digital transformation on the auditing profession. The conclave will enable participants to appreciate the continued significance of ethical principles, professional judgment and trust in an AI-enabled audit environment. It will facilitate awareness of emerging AI applications in auditing, enhance understanding of ethical, regulatory and governance considerations and equip participants with the necessary perspective to effectively respond to the evolving roles, responsibilities and expectations of the auditing profession while upholding the highest standards of integrity and professionalism.
